

Diagram showing the pin connections for U9 (XH2.54). The connections are as follows:

- Pin 1: PS_INC_A
- Pin 2: PS_INC_B
- Pin 3: PS_INC_IX
- Pin 4: +3.3V
- Pin 5: GND

[illegible]

The schematic diagram shows the STM32G431K8T6 microcontroller (U7) connected to an LED (LED1 LED-0603). The microcontroller's pins are connected to various components:

- VDDA** and **VSSA** are connected to the power supply rails.
- BOOT0** is connected to the **BOOT0** pin.
- PA10** is connected to the **LED1** LED.
- PA8** and **PA9** are connected to the **MP_A1** and **MP_A2** pins.
- PA11** and **PA12** are connected to the **SWCLK** and **SWDIO** pins.
- PA13** and **PA14** are connected to the **RS_RX** and **RS_TX** pins.
- PA15** and **PA16** are connected to the **RS_RE** and **RS_DE** pins.
- PA17** is connected to the **SWCLK** pin.
- PA18** and **PA19** are connected to the **MP_A1** and **MP_A2** pins.
- PA20** is connected to the **SWCLK** pin.
- PA21** and **PA22** are connected to the **RS_RX** and **RS_TX** pins.
- PA23** and **PA24** are connected to the **RS_RE** and **RS_DE** pins.
- PA25** and **PA26** are connected to the **RS_RX** and **RS_TX** pins.
- PA27** and **PA28** are connected to the **RS_RE** and **RS_DE** pins.
- PA29** and **PA30** are connected to the **RS_RX** and **RS_TX** pins.
- PA31** and **PA32** are connected to the **RS_RE** and **RS_DE** pins.
- PA33** and **PA34** are connected to the **RS_RX** and **RS_TX** pins.
- PA35** and **PA36** are connected to the **RS_RE** and **RS_DE** pins.
- PA37** and **PA38** are connected to the **RS_RX** and **RS_TX** pins.
- PA39** and **PA40** are connected to the **RS_RE** and **RS_DE** pins.
- PA41** and **PA42** are connected to the **RS_RX** and **RS_TX** pins.
- PA43** and **PA44** are connected to the **RS_RE** and **RS_DE** pins.
- PA45** and **PA46** are connected to the **RS_RX** and **RS_TX** pins.
- PA47** and **PA48** are connected to the **RS_RE** and **RS_DE** pins.
- PA49** and **PA50** are connected to the **RS_RX** and **RS_TX** pins.
- PA51** and **PA52** are connected to the **RS_RE** and **RS_DE** pins.
- PA53** and **PA54** are connected to the **RS_RX** and **RS_TX** pins.
- PA55** and **PA56** are connected to the **RS_RE** and **RS_DE** pins.
- PA57** and **PA58** are connected to the **RS_RX** and **RS_TX** pins.
- PA59** and **PA60** are connected to the **RS_RE** and **RS_DE** pins.
- PA61** and **PA62** are connected to the **RS_RX** and **RS_TX** pins.
- PA63** and **PA64** are connected to the **RS_RE** and **RS_DE** pins.
- PA65** and **PA66** are connected to the **RS_RX** and **RS_TX** pins.
- PA67** and **PA68** are connected to the **RS_RE** and **RS_DE** pins.
- PA69** and **PA70** are connected to the **RS_RX** and **RS_TX** pins.
- PA71** and **PA72** are connected to the **RS_RE** and **RS_DE** pins.
- PA73** and **PA74** are connected to the **RS_RX** and **RS_TX** pins.
- PA75** and **PA76** are connected to the **RS_RE** and **RS_DE** pins.
- PA77** and **PA78** are connected to the **RS_RX** and **RS_TX** pins.
- PA79** and **PA80** are connected to the **RS_RE** and **RS_DE** pins.
- PA81** and **PA82** are connected to the **RS_RX** and **RS_TX** pins.
- PA83** and **PA84** are connected to the **RS_RE** and **RS_DE** pins.
- PA85** and **PA86** are connected to the **RS_RX** and **RS_TX** pins.
- PA87** and **PA88** are connected to the **RS_RE** and **RS_DE** pins.
- PA89** and **PA90** are connected to the **RS_RX** and **RS_TX** pins.
- PA91** and **PA92** are connected to the **RS_RE** and **RS_DE** pins.
- PA93** and **PA94** are connected to the **RS_RX** and **RS_TX** pins.
- PA95** and **PA96** are connected to the **RS_RE** and **RS_DE** pins.
- PA97** and **PA98** are connected to the **RS_RX** and **RS_TX** pins.
- PA99** and **PA100** are connected to the **RS_RE** and **RS_DE** pins.
- PA101** and **PA102** are connected to the **RS_RX** and **RS_TX** pins.
- PA103** and **PA104** are connected to the **RS_RE** and **RS_DE** pins.
- PA105** and **PA106** are connected to the **RS_RX** and **RS_TX** pins.
- PA107** and **PA108** are connected to the **RS_RE** and **RS_DE** pins.
- PA109** and **PA110** are connected to the **RS_RX** and **RS_TX** pins.
- PA111** and **PA112** are connected to the **RS_RE** and **RS_DE** pins.
- PA113** and **PA114** are connected to the **RS_RX** and **RS_TX** pins.
- PA115** and **PA116** are connected to the **RS_RE** and **RS_DE** pins.
- PA117** and **PA118** are connected to the **RS_RX** and **RS_TX** pins.
- PA119** and **PA120** are connected to the **RS_RE** and **RS_DE** pins.
- PA121** and **PA122** are connected to the **RS_RX** and **RS_TX** pins.
- PA123** and **PA124** are connected to the **RS_RE** and **RS_DE** pins.
- PA125** and **PA126** are connected to the **RS_RX** and **RS_TX** pins.
- PA127** and **PA128** are connected to the **RS_RE** and **RS_DE** pins.
- PA129** and **PA130** are connected to the **RS_RX** and **RS_TX** pins.
- PA131** and **PA132** are connected to the **RS_RE** and **RS_DE** pins.
- PA133** and **PA134** are connected to the **RS_RX** and **RS_TX** pins.
- PA135** and **PA136** are connected to the **RS_RE** and **RS_DE** pins.
- PA137** and **PA138** are connected to the **RS_RX** and **RS_TX** pins.
- PA139** and **PA140** are connected to the **RS_RE** and **RS_DE** pins.
- PA141** and **PA142** are connected to the **RS_RX** and **RS_TX** pins.
- PA143** and **PA144** are connected to the **RS_RE** and **RS_DE** pins.
- PA145** and **PA146** are connected to the **RS_RX** and **RS_TX** pins.
- PA147** and **PA148** are connected to the **RS_RE** and **RS_DE** pins.
- PA149** and **PA150** are connected to the **RS_RX** and **RS_TX** pins.
- PA151** and **PA152** are connected to the **RS_RE** and **RS_DE** pins.
- PA153** and **PA154** are connected to the **RS_RX** and **RS_TX** pins.
- PA155** and **PA156** are connected to the **RS_RE** and **RS_DE** pins.
- PA157** and **PA158** are connected to the **RS_RX** and **RS_TX** pins.
- PA159** and **PA160** are connected to the **RS_RE** and **RS_DE** pins.
- PA161** and **PA162** are connected to the **RS_RX** and **RS_TX** pins.
- PA163** and **PA164** are connected to the **RS_RE** and **RS_DE** pins.
- PA165** and **PA166** are connected to the **RS_RX** and **RS_TX** pins.
- PA167** and **PA168** are connected to the **RS_RE** and **RS_DE** pins.
- PA169** and **PA170** are connected to the **RS_RX** and **RS_TX** pins.
- PA171** and **PA172** are connected to the **RS_RE** and **RS_DE** pins.

Pin connection diagram for the XH2.54 connector:

- Pin 1: SWO
- Pin 2: NRST
- Pin 3: SWDIO
- Pin 4: GND
- Pin 5: SWCLK
- Pin 6: +5-12V

Connector: CN10, XH2.54
